

ACADEMIC YEAR 2011/2012

FALL SEMESTER

- | | |
|---------------|--|
| 12. December | Zoltán Sebestyén (Eötvös Loránd University)
"Operator description in Hilbert spaces II." |
| 5. December | Zoltán Sebestyén (Eötvös Loránd University)
"Operator description in Hilbert spaces I." |
| 21. November | Gergely Röst (University of Szeged)
"Persistency of infinitely delayed disease propagation models" |
| 14. November | Alexander Ostermann (University of Innsbruck)
"Exponential integrators" |
| 7. November | Tamás Horváth (Eötvös Loránd University)
"Discontinuous Galerkin methods: maximum principles and matrix assembly" |
| 24. October | Zsigmond Tarcsay (Eötvös Loránd University)
„Unified treatment of perturbation theorems in real and complex Hilbert spaces II." |
| 17. October | Zsigmond Tarcsay (Eötvös Loránd University)
„Unified treatment of perturbation theorems in real and complex Hilbert spaces I." |
| 10. October | Bálint Farkas (Eötvös Loránd University)
"Again and last: bicontinuous semigroups" |
| 3. October | Tamás Matolcsi (Eötvös Loránd University)
"Radiation reaction" |
| 26. September | Petra Csomós (University of Innsbruck)
"On the stability of operator matrices" |
