

ACADEMIC YEAR 2013/2014

FALL SEMESTER

- | | |
|---------------|---|
| 9. December | Mihály Pituk (University of Pannonia)
"Positivity in delayed equations" |
| 2. December | Mihály Csirik (Eötvös Loránd University)
"Elliptic regularity" |
| 25. November | Balázs Kovács (Eötvös Loránd University)
"Full discretizations of parabolic problems" |
| 18. November | Zoltán Sebestyén (Eötvös Loránd University)
"Operators on Hilbert spaces which are adjoint of each other" |
| 11. November | Tamás Titkos (Eötvös Loránd University)
"The antecedents and generalizations of the classical
Lebesgue-decomposition theorem II." |
| 4. November | Tamás Titkos (Eötvös Loránd University)
"The antecedents and generalizations of the classical
Lebesgue-decomposition theorem I." |
| 21. October | Zoltán Sebestyén (Eötvös Loránd University)
"A reversed version of a theorem of John von Neumann" |
| 14. October | Noémi Nagy (Eötvös Loránd University)
"Diseases over random networks" |
| 7. October | Dávid Kunszenti-Kovács (MTA-ELTE NUMNET)
"Diseases on networks and approximation partial differential equations" |
| 30. September | Péter Simon (Eötvös Loránd University)
"Investigation of network flows in NumNet research group" |
| 16. September | Csaba Varga (Babes-Bolyai University)
"Symmetry and multiple solutions for certain quasilinear elliptic equations" |

ACADEMIC YEAR 2013/2014

SPRING SEMESTER

5. May Ádám Besenyei (Eötvös Loránd University)
 "Stochastic matrices and geometry: a Dimitriev and Dynkin paper from 1945"
28. April Péter Simon (Eötvös Loránd University)
 "Oscillations in adaptive network processes"
7. April István Győri (University of Pannonia)
 "Interconnection between ordinary and delay differential equations
 via approximation techniques"
31. March Ferenc Izsák (Eötvös Loránd University)
 "Error analysis of discontinuous Galerkin methods"
24. March László Czách (Eötvös Loránd University)
 "Problems, examples and counterexamples in analysis"
17. March Balázs Kovács (Eötvös Loránd University)
 "Partial differential equations on evolving surfaces"
10. March Hermann Mena (University of Innsbruck)
 "Modeling Glyphosate Aerial Spray Drift at the Ecuador-Colombia border"
3. March Elena A. Baderko (Lomonosov Moscow State University)
 "Dirichlet problem for parabolic systems in plane domains with non-regular
 lateral boundaries "
24. February Mihály Csirik (Eötvös Loránd University)
 "Elliptic regularity II."
17. February Dan Popovici (University of the West Timisoara)
 "Triangle equality in Hilbert modules"
